

for this company is that they present entertaining concerts of such solid musical character and and fresh wholesome power that it is sure to captivate the musical layman, while winning admiration from the musical critic of the severest type. As some one has already said: They have discovered just what the audiences want in the music-entertainment, but their claim

has given, in the opinion of our patrons, the greatest satisfaction of all musical organizations that have appeared at our assembly in the last four years." If necessary this whole paper could be filled with like quotations. This is the fifth and last number of the Course. Single Admission \$1.00

women and children flocked to the place of meeting for they had heard a report to the effect that the question, "Resolved, That Abraham Lincoln Our Literary is progressing nicely under President Walker. We are glad to note the interest of the patrons and as the school is anticipating a re-organization of the H. L. S. next year, they are of course, expecting to have the same president again."

was a greater man than Geo. Washington" would be discussed, Pro and Con by two school girls, namely: Gladys Poling to affirm, Kathleen Carey to deny. The debaters though inexperienced both handled the subject with an eloquence which was admired by all. The judges rendered a decision of two to one in favor of affirmative.

Paid Proportionate Share.
A poor fellow having with difficulty procured an audience of the du Newcastle, told his grace he came to solicit him for something towards a support, and as they were the same family, both being descended from Adam, hoped he should be refused. "Surely not," said the duke, "surely not—there is something for you, and if all the rest of relations will give you as much as I, you will be a richer man than I am."

Cannot Eliminate Love
A periodical devoted to literature pleads for plays based on action other than love. The author in producing such plays is of opinion that the play must have a hero, and a hero the playwright, as a rule, almost inevitably views the world from a certain point of view expressed two thousand years ago by a scribe on the walls of Pompeii: "He who loved a woman is not a philosopher."

FROST.

We are having some warm weather, the snow is going off and the farmers are glad.

Early Dilley and wife, of Hinton were visiting in our neighborhood last week.

B. B. Campbell, who is at Hinton hospital is still living.

The paper is growing bet-brighter every day and will find a place in every household regardless of politics.

As editor refuses to publish notices of people whose life failed to sustain this paper and gives no notice. People who do not read some paper are dead and their passing has no news value."

Reasoning by Deduction. A young English lady who was going out to New Zealand to get married went to a dressmaker for her trousseau. The dressmaker suggested a warm material. The young lady asked why, seeing that the climate of New Zealand is a beautifully mild one. The dressmaker replied: "I assure you, madam, you are mistaken, for that is where the frozen meat comes from."

houses and two hundred people. The houses are substantial and cozy and occupied by good people.

FROST.

Joe Cleveland spent Friday night at W. T. Townsends.

Wm. Shrader is very low with pneumonia.

W. T. Townsend was in Highland county on business this week.

Letcher Herald was in Monterey this week visiting friends. He will soon leave for Greenbrier, where he will look out a location.

Miss Clara Gibson, who has been visiting friends and relatives here, returned to her home, at Monterey, Friday.

Uncle Abraham Sharp is quite indisposed at this writing. Dr. Hite was called Sunday evening.

Mrs. Anna Curry is recuperating from a severe attack of diphtheria.

We understand that H. F. Arbogast and H. H. Grimes have sold their farms to Wm. Stafford and will vacate soon.

Rev. E. R. Crackett, evangelist, will begin a series of meetings at this place.

We note in the county court proceedings of last week that the bridge across Douthards creek was condemned and a temporary ford order opened. We take it that they will have this temporary ford until a republican court is elected which will build them a bridge. How about it folks on Douthards creek? The literal meaning of such action of the court is "Progress with Economy".

The little child of Mr. and Mrs. Ira Bussard, of New Hope, is very low with Pneumonitis at this writing.

W. G. Hull, of Green Hill, Highland county, Va., has bought W. T. Townsend's farm. Mr. Townsend contemplates moving to Marlinton. There seems to be quite a bit doing in our section in the way of land sales, which seems to indicate a republican victory in November.

Miss Edna Arbogast is visiting her uncle, F. C. Arbogast at Thornwood.

Master Richard Gregg was visiting his grandparents at Hotel Barlow last week.

Miss Anna Eaker is spending the week with Mrs. Chas. Phillips at Boyer. Mrs. Phillips had the misfortune of scalding her hands very badly, but we are glad to learn that she is getting along nicely.

Sam Irvine still knows how to trade horses. He sold Don Vandevender a fine saddle horse Saturday.

David Rader is the champion brush cutter for a man of seventy some years of age.

There is quite a bit of sickness in our community.

Edgar Arbogast, little son of Bud Arbogast, has been quite sick but is some better.

Sylvanus Sponangle was called to Pittsburg, Pa. to see his mother, who is seriously ill.

We are glad to see W. F. Wilfong able to be out again.

Joe Rexrode, of Hightown, Va., was visiting his parents at his place Saturday and Sunday.

Mrs. Wm. Vandevender was the guest of Mrs. P. W. Arbogast Sunday.

News is scarce this owing to such bad weather. With best wishes for the News we take our exit.

BUCKEYE.

D. A. McNeill is building a new house.

George Jackson's little girl is very sick at this writing. Dr. Howard attending physician.

Airship Trolley Car.

It is quite a new idea to drive a suspended trolley car by means of a propeller like an airship. The car, with which experiments are being made at Burden, Cal., runs on a short length of overhead track of about a quarter of a mile, and is driven by a twenty-six horsepower gas engine. The car is made of steel and aluminum, and is intended to have a light flexible covering, with celluloid windows. It is 50 feet long, and can carry 50 passengers. It has worked quite satisfactorily, though the track is too short to test its speed. The propeller has two blades, like huge fans, made of about metal or ribs of steel tubing. Another propeller will be fixed in front, which will double the motive power and prevent stoppage in case of a breakdown to the rear propeller.
